

## FROM THE PRINCIPAL

### Kindy Transition

We have had lots of new parents in our school lately as the Pre School children have commenced their transition to Berri Primary. Maria and I have had the opportunity to speak to the majority of parents in relation to:

- What they as parents can expect from Berri Primary School
- Our use of student data to inform student progress and to set direction and intervention
- The Berri Primary system of behaviour levels which is having such a significant impact on the school
- Our focus on 'catching children being good'

We look forward to the children and their families becoming part of the Berri Primary School community.

## Room 21/22 S.T.E.M Projects

During the last week of Term 3 Rooms 21 and 22 showcased their S.T.E.M projects. Each group was given the task of creating an Arcade game made completely out of recyclable materials. This project gave students the opportunity to collaboratively create and problem solve to produce a structurally sound, entertaining, functional game that can be enjoyed by a wide range of audiences. On the day, classes were given tokens to spend on their favourite arcade. At the end all tokens were counted and a winner was determined. Congratulations to Madaya, Rhianna, Tamira and Larissa from Room 21 for collecting the most tokens. Overall it was a hugely successful day and all groups should be proud of themselves and their creations.

Several of our students represented both the Girl Guides and Berri Primary School at the Remembrance Day Ceremony.
